

ED Updates for April 2008

AgIT/ YDAE

FYI No. T5.4.14

These are the updates for Extension Database.

Hello group,

If you don't work with the Extension Database please delete this message now.

There will be an update to ED going out tonight. This is nothing like the last and is just to fix some issues that FileMaker 9.0 caused and to bring everyone on the same version. The first one in the database in the morning will need to sync the database and this will only take 15 to 20 minutes.

Fixes

1. Adjusted the 5160 to better fit on the label
2. 5160 in the reports area now will use the correct layout depending on your default setting for "Type of 5160"
3. Member/ leader card adjusted
4. Whole Family now uses the "Type of 5160"
5. Master Gardener section updated

I have also added a way through ED to print out an invoice for your MDC orders. I will be sending out some instructions on this shortly.

Also I will be out of the office next week.

Richard Fox, YDAE

(4/17/2008) Hello group,

Like last year the State Workshops (Science Workshops, Round-Up, Electric Workshop, Jr Leader Conference, State Fair Leadership, and 4-H congress) entries are done through ED. Attached are the instructions for this. ☺
