

## **DRIVE RITE: KEYS TO SMART DRIVING**

### **Lesson Three Homework**

Important steps to avoiding crashes include thinking ahead and making a plan, but also knowing what to do when faced with a possible crash. This is important for teens and parents as you begin your practice driving and the *Drive Rite: Keys to Smart Driving* parent-teen driving lessons. Make a list of important safe-driving strategies you learned in class. With a parent or another adult, practice each strategy and record your experience and lessons learned.
